August 2015

Dear Parent/Caregiver

Currently, at Penola High School, we are investigating the concept of the Ideal Student. What does this young person look like? Think like? Sound like? The answers to these questions will provide a basis for the ongoing support and care of the young people we work with every day. We are looking for ways to improve our practice and provide the education that caregivers, students and teachers believe will contribute student success.

To assist with the provision of an education of the highest order for our students, we are creating a Plan for Ideal Learning for each individual student attending this school. We are beginning with our Year 8 cohort and the plans will be created with input from caregivers, students and their teachers. The beginning of this process requires ideas and goals from caregivers and students.

Please spend some time with your child completing the attached template. This will ensure that when we create an individual plan that we are providing the education that will lead to the goals that you and your child have for their future.

If you have any queries or require further information please do not hesitate to contact me.

Yours sincerely

Suzanne Gray
